(Shaklee Independent Distributor)

Get Clean With Housework, Etc. Agenda

- Housework, Etc. Story
- The Real Dirt on Clean
- Get Clean Product Information
- Buying Shaklee Get Clean Products

Get Clean with Housework, Etc.

Our Story

- Household cleaning products were some of the first products advertised on commercials. After years the same brand would promise New & Improved products. What was wrong with the old product?
- Why were these New and Improved cleaning products giving off fumes, irritating our eyes, our lungs, making our noses run?

Get Clean with Housework, Etc.

Our Story

- Our aim was to choose more environmentally “green” earth friendly cleaning products with less toxic exposure for our employees and our customers.
- Definition of Green:
 - Seeking the least harmful solution for both environmental and human health reasons

- Jacques Cousteau Society
- First Official Earth Day Product – Basic H

Get Clean with Housework, Etc. Our Story

**Our Homes Are a Place Where
We Can Take Control**

Get Clean with Housework, Etc.

The Real Dirt on Clean

81,000 CHEMICALS REGISTERED WITH THE EPA IN THE LAST 30 YEARS, and fewer than 20% have been tested for toxicity!

FACT: 90% of all poison exposures occur at home. 218,316 reported poison exposures in 2005 were from household cleaning products

FACT: 90% of our time is spent indoors. EPA reports that air pollution is up to five times higher inside than outside

FACT: Indoor pollutants come from all sorts of chemicals we use to make our lives easier every day—paints, carpets, furniture, household cleaners, personal care, among others

FACT: EPA studies indicate that elevated concentration of household chemicals persist in the air. Long-term exposure to chemicals inside our homes may be harmful to us and our families

The Real Dirt on Clean

FACT: Some 20 million Americans have asthma

FACT: An average of one out of every 13 school-aged children has asthma

FACT: Asthma rates in children under age five have increased more than 160% from 1980-1994

FACT: Common household cleaners and appliances give off fumes, which can potentially increase the risk of children developing asthma

“We are conducting a vast toxicologic experiment in our society, in which our children and our children’s children are the experimental subject.”

Dr. Herbert Needleman

Pediatrician and Professor at the University of Pittsburgh Medical Center

The Real Dirt on Clean

Chlorine Bleach is the chemical most frequently involved in household poisonings in the U.S.

Degreasers may contain petroleum distillates, which can damage lung tissues and dissolve fatty tissue around nerve cells

Glass Cleaners may contain ammonia. Ammonia fumes can irritate the skin, eyes, and respiratory system

Oven Cleaners can be one of the most dangerous cleaning products, which can cause severe damage to eyes, skin, mouth, and throat

Toilet Bowl Cleaners can be extremely dangerous cleaning products, which can be harmful just by breathing the fumes—and fatal if swallowed

SAFE POWERFUL GREEN SMART

GET CLEAN™ Safe for you, your home, and your planet.™

POWERFUL CLEAN

We believe you shouldn't have to sacrifice powerful convictions for powerful cleaners. And vice versa.

Dish Wash Liquid Concentrate is **twice as effective as** Method[®] Dish Soap and Seventh Generation[®] Dishwashing Liquid on grease*

Basic H²™ Organic Super Cleaning Wipes cleans **twice as much** dirt than Pledge Wipes on vinyl flooring*

Basic H² (at ¼ tsp in 16 oz. water), Method[®] Go Naked Spray, and Seventh Generation[®] Free and Clear Spray were tested on clean tile. Both the Method and Seventh Generation products left film and streaks. **Basic H² left none.**

Nature Bright[®] Laundry Booster and Stain Remover is **twice as effective** than OxiClean[®] on grass stains*

Fresh Laundry Concentrate HE Compatible is **33% Better** at removing soil and stains than All[®] Small & Mighty[™] *

Fresh Laundry Concentrate HE Compatible Outperforms Shout[®] and Spray 'n Wash[®] on spot removal*

*These performance comparisons were done on March 29, April 24, 2006 and January 11, 2007 and are valid only for the named products marketed at that time. All trademarks are the property of their respective owners.

GET CLEAN™ Safe for you, your home, and your planet.™
